### What's Been Happening: Triptychs

This week it was "show and tell" as members showcased their photographs by grouping them in to sets of three to create one image. As is always the case a wonderful selection of images, sometimes this was done horizontally, sometimes, vertically and sometimes it was careful splitting of one image into three. You can see some of the entries on the following pages

This week we also, through the skills of Julian assisted by Chrissy, captured the meeting on video - it will be on the website shortly.

Hosted by Nigel, members took time to explain the rationale behind the photographs and how they illustrated what they got up to

Chrissy and Julian setting up the video recording of the event, David and Stan wondering about Fit Forces and Nigel not realising the audience is behind him ! (Photos from Tom)
